Jianyang Gu

(+86) 18867543859 | gu_jianyang@zju.edu.cn | vimar-gu.github.io

Education

Zhejiang University Hangzhou, China
B.Eng. in Control Science and Engineering *Sep. 2015 – Jun. 2019*
- Courses: Automation Control, OOP, Robotic Design, Computer Vision

Zhejiang University Hangzhou, China
Ph.D. in Control Science and Engineering *Sep. 2019 – Exp. Jun. 2024*
- Research Interests: Unsupervised Domain Adaptation, Image Retrieval, Person Re-Identification

Projects

Multi-view Evolutionary Training for UDA Re-ID (In submission) Dec. 2020 – Mar. 2021
- Improve the accuracy of clustering results from two dimensions.
- Integrate information from multiple views to promote the quality at separate clustering steps.
- Maintain the historical consistency between adjacent clustering results.

Bias Elimination for UDA Re-ID Jun. 2020 – Aug. 2020
- First place solution to the Visual Domain Adaptation Challenge 2020.
- Solve the inter-domain bias with generative networks and clustering-based training pipeline.
- Solve the intra-domain bias brought by camera differences with post-processing methods.

Angular Triplet Loss for Vehicle Re-ID Jul. 2019 – Oct. 2019
- Uniform the metric space for triplet loss and cross entropy loss.
- Design an effective baseline with only global feature employed.

Work Experience

Alibaba Research Intern Jun. 2020 – Apr. 2021
- Focused on the unsupervised domain adaptive person re-identification.

Yitu Tech. CI Intern May. 2018 – Aug. 2018
- Participated in building up the automated test pipeline for products.

Awards & Honors

Alibaba Annual Outstanding Research Intern 2020
- For the best interns company-wide.

Second Prize, National AI Challenge 2020 Person Re-Identification Track 2020
- Beat more than 300 teams.

First Place, Visual Domain Adaptation Challenge 2020 2020
- Beat MMLab, Ruiyan Tech., JD AI, etc.; Made oral report in ECCVW.

Annual Merit Graduate Student 2020
- For the outstanding graduate students in each year.

First Place, Robocup Montreal 2018
- An international competition on the robot soccer.
